

Embrace the journey

Vagos- Embrace the Journey

Vago = a Nicaraguan slang word for someone who travels frequently

About Us

We have all been a vago at some point in our lives. Whether through literally traveling or even changing careers or moving to a new town, life has taken us on a journey of change and discovery. On our journeys, we have the opportunity to discover the connection between our passions, our talents, and most importantly, how we can use both to make positive change in the world around us. From the doctor who discovers a connection with music to the artist with a passion for advocacy and empowerment, our designs aim to inspire all to connect with the vago within and embrace the journey. We hope you wear our brand along the way.

Our Give

We are a social enterprise based in Nicaragua with a long-term goal of starting projects to empower young professionals and aspiring entrepreneurs along with offering basic medical services to surrounding communities.

For we are more than our face value. Our minds are bastions of endless intrigue, unfettered justice, and boundless creativity yearning to break free.

Dana Terry '17

Porque somos más que nuestro valor nominal. Nuestras mentes son defensoras de la intriga sin fin, de la justicia sin trabas, y de la creatividad ilimitada anhelando liberarse.
